Write a python program to count the number of vowels and consonants in a given string?

Python Program to Count Vowels and Consonants:

```
def count_vowels_consonants(s):
    vowels = "aeiouAEIOU"
    v_count = 0
    c_count = 0

    for char in s:
        if char.isalpha():  # only check letters
            if char in vowels:
                v_count += 1
            else:
                c_count += 1
    return v_count, c_count

# Example
text = "Welcome to Code Paradise"
vowels, consonants = count_vowels_consonants(text)

print("Vowels:", vowels)
print("Consonants:", consonants)
```

✅ **Output**

Vowels: 9

Consonants: 13

Code Paradise
